

# Every second matters

– Helping you secure daily operations, **manage crises** and **save lives**

Whether you want to send mass notifications, alert individuals and teams, collect data or use real-time chats and videos, Secapp has a solution for you. From everyday communications to complex crisis scenarios, we make sure you are covered.

Try our award-winning technology and Book a Demo by contacting us: [sales@secapp.fi](mailto:sales@secapp.fi)

- ✔ Can be taken into use in days and works on any device
- ✔ Replaces call trees, SMS messages and traditional pagers
- ✔ Bypasses silent settings and demands instant response

Trusted by 120,000+ users in 14 countries

Growing with 45+ partners

# About Us

Secapp is a Finnish state-of-the-art technology for reliable and fast communication. With Secapp, you can shorten response times, minimize financial damage and harm to associates and save lives in unexpected and crisis situations. All this in a platform where the data remains secure and owned by the customer.

# They trust us

Our customers are hospitals and healthcare, rescue services, academies and schools, critical infrastructure, security, voluntary organizations, public administrations, real estate and contractors.

Finnish healthcare and education systems are the top level in the world. Many Finnish academies and **18/21 Finnish hospital districts** use Secapp daily.

Secapp has also been selected as the number one solution for Estonian healthcare. The system is also in use in the Middle East in multiple hospital districts and at the ministerial level.

*"We used SMS messages and phone calls before and it was slow. Now our communication is more accurate and agile."*

Jouni Kurola, Kuopio University Hospital, Finland

*"Before Secapp, it took 5-10 minutes to alert. With Secapp, it takes 30-60 seconds."*

Joni Alanko, Hospital District of South Ostrobothnia, Finland

*"We are able to reach our thousands of students and hundreds of personnel in seconds with Secapp".*

Tiina Ranta, Laurea University of Applied Sciences, Finland
